Take Back THE NIGHT
Silent March & Speak Out

- Speak out starts at top of the University Commons leading to the Konover Great Room

Take Back the Night is an internationally held silent march to protest sexual violence against women and men and to promote awareness of the attitudes, beliefs, and behaviors that perpetuate this kind of violence.

Its purpose is to bring survivors, supporters, activists, and community leaders together in a call for an end to sexual assault, domestic violence, dating violence, sexual abuse, and all other forms of sexual violence.
