A 320

Facilitated by Dr. Nels P. Hightberg, 2016-18 Harry Jack Gray Distinguished Teaching Humanist

Sometimes, faculty plan to discuss gun control, terrorism, sexual assault, and other contentious issues in class. In the wake of #metoo and #guncontrolnow, such topics often arise in the moment.

This workshop begins with a description of a three-pronged approach to handle spontaneous and intentional discussions of divisive issues before attendees raise their own strategies, fears, successes, and challenges.
