SPA 300 Introduction to Hispanic Culture (Medical Spanish)

3 credits

This is a hybrid, medical Spanish course for health care and medical professionals. The main class objective is for students to learn medical terms and vocabulary used in medical facilities, hospitals, doctor’s offices and/or healthcare environment. The course is designed for students with no formal background in the language. Text, audio, video, classroom activities, and electronic exercises will be used to teach specialized medical vocabulary, basic grammar and colloquial terms as well as words used from the different customs and communication styles of the Latino communities. (Distance learning and one class per week on campus, Tuesdays 5:30-7:00 pm)
