Distinguish Yourself

USP 400
UNIVERSITY SCHOLARS PROGRAM

ENROLL NOW FOR AN EXCEPTIONAL EXPERIENCE working simultaneously with faculty with highly diverse teaching and research interests. The program is available to students who have an idea for a research project that crosses boundaries - such as a work that incorporates text but also artistic visual and/or audio output, or a study that crosses different disciplines resulting in technical prototypes and/or multimedia electronic presentations.

The University Scholars Program students’ projects are showcased each year at the Undergraduate Research & Creativity Colloquium.
